

Coordinated care for all of your buildings

You manage a group of buildings busy with students, patients, staff and customers. Let's work together to keep them comfortable and dry.

Scale and expertise for your campus

We are the largest commercial roof and building envelope team in the Northeast. We serve academic institutions, hospitals and multi-site businesses of all sizes.

How it works:

We will survey your campus/locations then work with you to develop a care plan that meets your exact needs. We'll designate a project leader as your single point of contact for all roof and building envelope issues. The advantages of working with GRS include:

- **One call, one vendor, one invoice**
- **Expert customer service available 24/7**
- **Emergency response 24/7**
- **Experience with most high-profile and complex campuses and work environments**
- **Exclusive building management software for easy online management and scheduling**

Why choose GRS?

Not every company can handle a group of buildings like yours. GRS has the experienced and certified teams ready to deliver a full range of roof and building envelope services for any building, regardless of its age, complexity or envelope design.

Built on safety, quality, and craftsmanship

Established in 1992 in Worcester, Massachusetts, Greenwood Industries is now one of the Top 10 commercial roofing and building envelope systems contractors in the United States.

With locations across the Northeast and more than 1,000 people on the job today, we have the capacity and the expertise to perform at any scale. We are signatory to 17 union contracts, because we value the integrity of skilled labor and are committed to providing jobs that sustain families and communities.

Greenwood began on the roof, the heritage of three generations of roofers in our founder's family. Today we are a full-service roof and building envelope company, with engineering, installation, and service divisions, plus our own metal fabrication shops. The Greenwood group also includes TWC Phoenix, the regional leader in the fields of waterproofing, air/vapor barriers, masonry services and more.

Whether it's one building or an entire campus, Greenwood Industries is ready to serve your building envelope needs from design to installation and ongoing service.

About Greenwood Building Envelope Services

Greenwood Building Envelope Services is the professional maintenance division of Greenwood Industries. We plan and execute customized programs to maintain, repair or upgrade roof and building envelope systems. We will help protect your building(s) and the business that goes on within. When emergency strikes, we're on call 24-7 for our clients.
